I cuscini in memory foam mantengono una posizione corretta durante il sonno, ideali soprattutto per chi soffre di problemi cervicali e per chi dorme supino. Inoltre, sono adatti a chi ha allergie, grazie ai materiali sintetici che impediscono l'accumulo di acari e sono termosensibili, adattandosi alle caratteristiche individuali dell'utente.

Memory foam pillows maintain a correct position during sleep, making them especially ideal for those who suffer from cervical issues and for those who sleep on their backs. Additionally, they are suitable for allergy sufferers, thanks to synthetic materials that prevent the accumulation of dust mites and are thermosensitive, adapting to the individual characteristics of the user.

Les oreillers en mousse à mémoire maintiennent une position correcte pendant le sommeil, idéaux surtout pour ceux qui souffrent de problèmes cervicaux et pour ceux qui dorment sur le dos. De plus, ils conviennent aux personnes allergiques, grâce aux matériaux synthétiques qui empêchent l'accumulation d'acariens et sont termosensibles, s'adaptant aux caractéristiques individuelles de l'utilisateur.

I cuscini in lattice, ergonomici per natura, garantiscono l'equilibrio tra comfort e supporto. Ideali per chi cerca sostegno e traspirabilità, favoriscono un sonno sano e rigenerante adattandosi perfettamente alle curve di testa e collo. La sua alta permeabilità impedisce la crescita di muffe e batteri, mantenendo il cuscino igienico.

Latex pillows, ergonomically designed by nature, provide the perfect balance between comfort and support. Ideal for those looking for support and breathability, they promote healthy and rejuvenating sleep by perfectly adapting to the curves of the head and neck. Their high permeability prevents the growth of mold and bacteria, keeping the pillow hygienic.

Les oreillers en latex, ergonomiques par nature, garantissent un équilibre parfait entre confort et soutien. Idéaux pour ceux qui recherchent du soutien et de la respirabilité, ils favorisent un sommeil sain et régénérant en s'adaptant parfaitement aux courbes de la tête et du cou. Leur haute perméabilité empêche la croissance de moisissures et de bactéries, maintenant l'oreiller hygiénique.
